

Creating a network of local food production in the Scottish Borders

British Native Trees

There is debate about what constitutes a British Tree. This definition is from The Woodland Trust,

“Trees which colonised the land after the last ice age and before the UK was disconnected from mainland Europe are classed as native.”

This list is taken from their website where you will find much more information –

<https://www.woodlandtrust.org.uk/trees-woods-and-wildlife/british-trees/a-z-of-british-trees/>
